

## **Patient Portal Information**

Pediatric Affiliates is now able to provide you with access to your child's medical information on our new patient portal called FollowMyHealth™. With a FollowMyHealth™ account you will be able to stay up to date with a summary of your child's medical data including diagnoses, medications, immunizations, vitals and allergies. Appointments, future and past will be available and you will receive appointment reminders. All of this will be available on your smartphone, tablet and computer.\*

Until your child is 18 years old you can have access to the patient portal as a proxy. After age 18 your child can have his or her own access.

Registration is simple. Fill out the attached form and return it to the reception desk. Within a week you will receive an email with instructions on how to set up the account.

- Step 1 – Read the email through completely
- Step 2 - Go to the Apps Store or Google Play Store and install the FollowMyHealth™ app.
- Step 3 - Create a user id and password using the app.
- Step 4 - Set your notification preferences to text and/or email.
- Step 5 - Browse your child's medical information.

We are excited to be able to offer our patients this free service. We hope you will find it informative and useful. If at any time you are no longer interested in our portal you can simply opt out using the app.

Please direct any questions to [portalhelp@pediaff.com](mailto:portalhelp@pediaff.com). This will be the quickest way to get your answer.

\*Subject to chart review of all patients in the request. Access to FollowMyHealth™ is influenced by our office policies, NJ State and Federal law.
